

National Drive Your TVR Day

Sunday 14 August 2016

The aim of the day is to get as many TVRs out and about on the roads, whether it is just a short trip to the local shop, a full run out organised with friends or by your local region; every TVR out in the open counts.

You can still join in even if your TVR is currently off the road, push it out of the garage and take a picture of it on the drive, as long as it's not under cover it counts.

If you need any help with organising the day or are looking for new ideas please contact projects@tvrcc.com and we'll be happy to help.

Send your pictures plus a short paragraph of where you went and what you did to editor@tvrcc.com or upload to the Clubs facebook page, so we can all then see what everyone else did on the day.
